#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

### **DETAILED ACTION**

1. Applicant's request for reconsideration of the finality of the rejection of the last Office Action is persuasive and, therefore, the finality of that action is withdrawn.
2. This Office Action is in response to Amendment filed on Dec 07, 2005.
3. Claim 4 has been canceled.
4. Claims 1, 14 have been amended.
5. Claim 17 has been added.

### ***Drawings***

6. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawing were not formal and each block should be labeled. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
- 7.

### ***Claim Rejections - 35 USC § 103***

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. Claims 1-3, 5-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Anandakumar et al. (6,574,213).

Regarding claims 1-2, 8-9, 12, 14, 17, Anandakumar discloses a wireless base station systems for packet communications comprising: a first internet protocol interface configured to receive an incoming cell phone signal generated by the first mobile station, and to transmit said phone signal to the internet (see fig.19, elements 1921, 1915, 351 and its description); and a second internet protocol interface configured to receive said phone signal sent through the internet by said first internet protocol interface and to transmit said phone signal to the second mobile station, such that users of the first and second mobile stations can engage in a conversation where said phone signals are communicated over substantial distances through the internet (see fig.19, elements 1917, 1937, 351 and its description), wherein one of said first and second internet protocol interfaces each maintains an echo canceller/equalizer module configured to correct distortions in said phone signal caused by the travel of said phone signal through free air, server delays and internet delays (see fig.19, elements 1917, 1937, 351 and its description).

Regarding claims 5, and 10-11, Anandakumar further discloses A/D and D/A converter (see fig.15, col.35, line 50 and its description).

Regarding claims 6-7, 13, and 15-16, Anandakumar further discloses said phone signal can be transmitted from said first internet protocol interface to said second internet protocol interface via a private packet switched network (see abstract, fig.3, fig. 17 and its description).

Regarding claims 3, and 8-9, Anandakumar further discloses of a first and a second software controller module configured to process address information of the

second mobile station provided by the user of the first mobile station (see fig.18, and its description).

### ***Conclusion***

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CongVan Tran whose telephone number is 571-272-7871. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nick Corsaro can be reached on 571-272-7876. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
